## GROWING AND CHANGING

<table>
<thead>
<tr>
<th>Stage: 3</th>
<th>Year 6</th>
<th>Unit Duration: 9 Lessons</th>
<th>Weeks 1 2 3 4 5 6 7 8</th>
<th>Terms 1 2 3 4</th>
</tr>
</thead>
</table>

### Enduring Understandings

- **E.1** Each person is a unique individual with their own feelings and values and these differences should be respected.
- **E.2** I have a responsibility to become a complete person with a strong sense of self worth and dignity.
- **E.3** We should understand, accept and respect our body and the bodies of others.

### Essential Questions:

- How does my body grow and change?
- What factors influence personal and community health?

### Major Outcomes

#### Knowledge and Understanding

- **GDS3.9** Explains and demonstrates strategies for dealing with life changes

#### Skills

- **PSS3.5** Suggests, considers and selects appropriate alternatives when resolving problems

#### Values and Attitudes

- **V1** Refers to a sense of their own worth and dignity

### Contributing Questions/Lesson Overview

1. What is self-esteem & how does it affect what I value? (E.1)
2. How do I change during puberty? (E.2)
3. How am I growing and changing? (E.2)
4. What are the changes for boys and girls? Part 1 (E.2, E3)
5. What are the changes for boys and girls? Part 2 (E.2, E3)
6. How are boys and girls expected to act? (E.2)
7. What is safe and unsafe touching? (E1, E.3)
8/9. How can I be cyber smart? (E1, E.3)

### Contributing Outcomes

#### Knowledge and Understanding

- **IRS3.11** Describes roles and responsibilities in developing and maintaining positive relationships

#### Skills

- **COS3.1** Communicates confidently in a variety of situations

#### Values and Attitudes

- **V2** Respects the rights of others to hold different values and attitudes from their own

### Personal Health Choices

Throughout our lives, we all face having to make personal decisions relating to nutrition, hygiene, consumerism, drug use and disease prevention. So many conflicting opinions and values influence children in making decisions that have direct relevance to their health and well-being. This strand seeks to develop the children's abilities to observe, explore, interpret and judge, informed by an emerging integrated value system.

### Interpersonal Relationships

Human beings find their true place within community; they grow towards maturity through the relationships they maintain. We all depend on each other and, as we mature, we grow in awareness of our responsibility for each other. Alone and isolated we cannot develop our gifts and talents.

---

**TEACHER NOTES**

- This unit deals with a sensitive topic and needs to be dealt with according to the school's and DET policy.
- Student questions need to be addressed in a sensitive, caring and supportive manner.
- Resources need to be approved by the principal and parents are to be informed of the content of the unit.
- Parents are to be informed by letter prior to commencement of the unit. (See sample in Appendix Section)
- Teacher review sample Q & A for Sexuality Education in the Appendix Section
Among family, friends, members of our peer group and others, we find our place as contributing members of society. It calls us all to enter freely into loving and forgiving relationships that are embedded in community, to develop such qualities as honesty, respect, empathy, openness and a commitment to equality.

**Foundation Statements**

Students examine key factors that contribute to a balanced lifestyle and keeping safe and healthy. They examine nutritional information, disease prevention and the effects of drugs on the body and they identify behaviours that impact on wellbeing. Students assess the safety of situations in home, school, water and road environments and identify appropriate responses. They describe and practise a range of personal safety strategies that could be used in threatening or abusive situations. They take responsibility for personal decisions, recognising the effects that decisions have on self and others.

Students describe the factors that influence personal identity and examine the physical, social and emotional changes that occur during puberty. They devise strategies for coping with change, grief and loss. They value the differences between individuals and challenge discrimination and harassment. Students value different roles and responsibilities in relationships, the importance of communication and they practise positive ways to deal with conflict.

**Technology**

The following websites have been selected to enhance various concepts being taught throughout this unit. Most of the sites listed can be linked to more than one of the lessons being taught. Teachers may like to add them to the school intranet site. Some of the following sites have a great deal of information and it is important for the teacher to choose sections that are relevant to the needs and maturity of his/her class.

Uses reflective listening in order to clarify a friend’s point of view  
Recognises a wide range of influences on development of personal values  
Accepts themselves as they grow and change |

Suggested Learning Experiences

In pairs, create a definition for the term, self-esteem. Share these definitions with two other pairs. Teacher brings the students to the understanding that self-esteem means how we feel about ourselves. Explain that this might mean how you feel about yourself as a student, friend or child and whether you think others like you and how you feel about your ability to manage life. Use the analogy that self esteem is like a cup of water and that sometimes it is full (high self-esteem) and sometimes it is low (poor self-esteem). Discuss what things can fill our cup or empty our cup? List people and events that may influence the development of self-esteem, eg, friends, family, life changes (milestones), loss, relocation. How do good relationships help your self-esteem? What makes a good relationship? How can good relationships help people cope with issues?

Students participate in a Polar Debate by responding to the following statements. (Students respond to a number of statements by moving to the signs Strongly Agree, Agree, Neutral, Disagree and Strongly Disagree around the room. Teacher selects several students to justify their response. Students may then change their response and move to another sign after listening to a student’s justification.)

- Self esteem can affect what we value.  
- Money is essential.  
- We should try to decrease our carbon footprint.  
- Puberty maybe a time of confusion.  
- Teachers can effect our self esteem.  
- Being fit is important.  
- It’s cool to wear the latest fashion.  
- Friends are more important than family.  
- Love yourself.

Discuss the meaning of the word ‘values’. Discuss the schools values. Students brainstorm a list of values, eg honesty, loyalty, trust, respecting each other, rejecting violence. Teacher records these on the board. List who and what influences our values and talk about how your values have developed.

TEACHER NOTE: It is important the students recognise the effect self esteem may have on the things they value in life, both the personal and material things.
HOME TASK: Students design and create a *Values Shield* using art or craft materials. On each part of the shield students record their personal values and underneath record a personal statement or code of behaviour which they believe in.

#### Suggested Learning Experiences

**TW: TEACHER NOTE:** It is important to inform the students that they are going to be talking about the body and how it changes as they grow. The changes are a gift and should be understood and respected. Explain that the correct terms of the sexual parts of our body will be used and therefore, they need to be sensible during the lesson.

Review the following class rules for the sensitive issues unit:
- Respect each other’s opinions (no put downs)
- Respect people’s privacy - do not use people’s names
- Keep confidential what others say in class (do not go and tell younger students)
- Respect each other’s feelings e.g. the right to pass for student/teacher

All the beliefs and values relating to this lesson should be displayed around the room for reference during the lesson. It is recommended that the teacher explains and discusses these, prior to commencing this Lesson.

- It is my responsibility to become a complete person, to build a strong sense of self worth, to grow and develop to my full potential.
- We change and grow to become adults.
- While respecting others, we do not necessarily take on their values or opinions. We are able to discriminate between what is right and what is wrong.
- We are called to wholeness, completeness and maturity.

Challenge the students to show such respect when reading the following book, and let them know it may be embarrassing to hear some of the correct terms for the ‘private’ or sexual parts of the body. While this is presented in an amusing way and may make them laugh, explain the difference between laughing ‘with’ rather than laughing ‘at’.

Students and teacher read the book *Hair in Funny Places*. In groups, using the information from the book, brainstorm a list of changes that occur to boys and girls. Students complete the *Body Changes Activity*.

Talk about puberty as a time of change and growth. Note the role of hormones in bringing about changes during puberty and the fact that the onset of puberty varies between individuals.

Share feelings associated with changes. Remind students about using the correct terminology for the sex (private) organs and to refer to them in an appropriate and respectful way.

#### Resources
- **Body Changes Activity**
- Butchers paper
- Textas and pencils

#### Assessment
- Student work sample of *Body Changes Activity*
We appreciate and respect our body and the bodies of others.

List the changes that occur during puberty.

Changes in Boys

Changes in Girls

Identify a change that has occurred in your life. How did you feel about the change?

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

What did you do to cope with the change?

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

_____________________________________________________________________

Lesson 3  How am I growing and changing?

<table>

</thead>
</table>
| E.2 I have a responsibility to become a complete person with a strong sense of self worth and dignity. | GDS3.9 Explains and demonstrates strategies for dealing with life changes | • Recognises that many changes occur in a predictable sequence
• Describes the reproductive process |
|                         | PSS3.5 Suggests, considers and selects appropriate alternatives when resolving problems | • Reflects on problems associated with change during puberty and suggests possible solutions
• Appreciates the importance of human reproduction |
|                         | V1 Refers to a sense of their own worth and dignity | |

Suggested Learning Experiences

TW: TEACHER NOTE: Revise the Beliefs and values displayed from Lesson 3 and refer to them during relevant activities in this Lesson.

As a class, students watch the co-educational DVD, *Things Are Changing Part 1 - General Physical Changes*. Review the content of the DVD. In pairs, complete a PMI Activity (Plus, Minus, Interesting) on Part 1 of the DVD - hormones, hair, body odour, body shape etc.

Divide the class into groups, where the children will brainstorm and/or do research using the information found in the *Things Are Changing* - Boys and Girls books (or CD Rom printable notes) They will report back their collective ideas and discoveries by answering the following questions:

1. Why does puberty happen?
2. What are the two female hormones which result in puberty for girls?
3. What are the physical changes that will occur in girls?
4. What is the male hormone which results in puberty for boys?
5. What are the physical changes that will occur in boys?
6. How will hormones affect my emotions during puberty?
7. What lifestyle choices do we need to make during puberty?

Students are encouraged to continue their discussion with their parents/carers at home. Send home the students exercise book for parents to make a comment. Students could design some questions to interview parents e.g.

1. How did you find out about body changes during puberty?
2. How old were you when your body changed?
3. What did you think about the changes?
4. How did you cope with the changes?

Resources
- *Things Are Changing* - Boys and Girls book or CD Rom with printable notes.

Suggested Learning Experiences

As a class, view Part 2 What's happening for the boys of the co-educational DVD, Things Are Changing. This section of the DVD deals with the male reproductive system, sperm, sexual intercourse & emotional changes. Review the body parts on Male Reproductive System.

As a class, view Part 3 What's happening for the girls of the co-educational DVD Things Are Changing. This section of the DVD deals with the female reproductive system and the menstrual cycle. Review the body parts on Female Reproductive System.

Discuss the functions of each of these body systems. (Refer to Teacher Information Sheets 2 and 3 for answers and background information.)

Explain to the children that there will be a verbal question time and the opportunity for a question box to ensure anonymity. This may be separate boys/girls or as a class. Refer to Appendix Frequently Asked Questions and Answers for Stage 3 Sexuality Education in a Catholic School.

TW: Bring the students to the understanding that as we grow and develop we enjoy all our capacities and gifts, our intellect, our emotions, our spirit, our will and our physical bodies. We should embrace these changes, and to feel proud of whom we are, showing that we each have dignity and worth. This is sometimes a very difficult thing to do.

TW: In small groups ask the children to discuss how they could show their teachers and parents that they respect themselves and their class mates in relation to their sexuality. Explain that this can be done by appreciating and respecting our body and the body of others. (This belief is already displayed from Lesson 3.)

Resources
• Art paper, textas, coloured pencils and crayons

Assessment
Student participation in group activity
Female Reproductive System

Male Reproductive System

Penis: the penis is the male sex organ. Generally it is soft and relaxed. However, at times of sexual arousal the vessels become filled with blood and the penis becomes erect.

Testicles: (also called testes) the testicles are the male sex glands. They are held in a loose sac of skin called the scrotum. At puberty, the testicles begin to produce the male sex cell called spermatozoa (sperm) and the male sex hormone called testosterone.

Vas Deferens: narrow tubes leading from the testicles through the seminal vesicle and prostate gland to the penis. These tubes provide a passageway for sperm.

Seminal Vessel: produces seminal fluid. This fluid provides sperm with both nourishment and a medium in which to travel. When sperm and seminal fluid mix, the product is called semen.

Prostate Gland: a small gland below the bladder that assists in the production of seminal fluid. The prostate gland also produces a fluid that neutralises the acidity of the female vagina, increasing the survival rate of sperm.

Urethra: a narrow tube in the centre of the penis. This is the pathway that allows both urine and semen to escape the body. A small valve controls the fluid allowed to pass into the urethra. In its relaxed state, the valve allows urine to travel from the bladder into the urethra for excretion. When erect, the valve closes this pathway to allow semen to enter the urethra from the seminal vesicle.

Epididymis: millions of sperm are produced each day. They are stored in the epididymis prior to ejaculation.

Female Reproductive System

The female reproductive system is protected by the pelvic bones and the muscles of the abdomen.

Vagina: the vagina is a muscular passageway that, although normally narrow, is able to expand during childbirth when it is referred to as the birth canal.

Cervix: the cervix is found at the neck of the vagina, leading into the uterus. The cervix dilates during childbirth to allow the child to move from the uterus into the birth canal.

Uterus: the uterus is a pear shaped organ. Its walls are muscular. This allows them to expand with the growth of the foetus during pregnancy and contract to force the child into the birth canal during childbirth.

Fallopian Tubes: two thin tubes that lead from the ovaries to the uterus, providing a passageway for mature ova. The ova are swept along the tubes by tiny hairlike projections called cilia. Fertilisation generally occurs in the fallopian tubes.

Ovaries: there are two ovaries, one on either side of the uterus at the distal end of the fallopian tubes. The ovaries are the female sex glands, responsible for both the secretion of sex hormones and the maturation of sex cells (ova).

Ovulation: the time when a mature ovum leaves the ovary and travels along the fallopian tube towards the uterus. This generally occurs fourteen days prior to the start of a period.

Suggested Learning Experiences

Separate the class into gender groups. (If possible, a known male and female member of staff should facilitate this session for each gender.) It is important that students can ask questions specific to their needs in the safety of their own gender group.

Children could view either the individual Boy's/Girl's DVD: Things Are Changing resource. Each group can discuss:

Boys groups
- Physical development for young men
- Hygiene during puberty

Girls groups
- Physical development for young women
- Menstruation, Sanitary products, Menstrual hygiene.

Make a list of questions to be answered by mum or dad (students can volunteer to share their answers if they feel comfortable doing so). Students are invited to write questions for the question box. Review each lesson.

In small groups, students are allocated a scenario relating to puberty and changes from the What Should I Do? activity. Students review the belief, 'We appreciate and respect our body and the bodies of others' and refer to this when they read the scenario and respond to the relating questions. Groups present their responses to the class.

In the same groups, students then create their own scenario relating to puberty and changes associated with this. Each group then swaps scenarios and responds.

Resources
- Art paper, textas, coloured pencils and crayons

Assessment
- Student participation in group activity

Scenario 1:
Eamonn has developed a number of pimples on his face. He feels embarrassed and covers them with his hand when he talks to others. What lifestyle choices could assist in him coping with his pimply skin?

Scenario 2:
Jacquie has begun to develop breasts earlier than her friends. She wears a loose jumper to cover up and avoids contact with others whenever possible. How can she overcome her self-conscious feelings?

Scenario 3:
Tuan has started her first period. The school swimming carnival is on tomorrow and Tuan is an excellent swimmer. She is anxious about participating. What could she do?

Scenario 4:
James noticed that he was perspiring more during exercise and that his perspiration was beginning to mark his clothes and create body odour. He enjoys sport but is embarrassed about the way his body is changing. What should he do?

Scenario 5:
Ahmed woke up to realise that he had a wet dream. He showers and puts his pyjamas in the wash but he is embarrassed by what is happening to his body while he is asleep. Should he be embarrassed? How should he react? What should he do?

Scenario 6:
Anna is 12. She has noticed pubic hair beginning to grow. The bathroom does not have a lock on the door and her brother, sisters and mother sometimes use the bathroom while she is bathing. Anna would like privacy while she uses the bathroom. What could Anna do?
Lesson 6  How are boys and girls expected to act?

<td>• Appreciates gender similarities and differences</td>
</tr>
</tbody>
</table>

Suggested Learning Experiences

Respond to question box questions. Keep the question box opened until the end of the unit.

Teacher reads the book Prince Cinders to the class. Students respond to the questions on the Prince Cinders Activity. Teacher introduces the concept of gender expectations and images. The teacher reads out some statements on the Agree or Disagree Activity. Teacher identifies a continuum in the classroom which indicates positions. After the teacher reads a statement students decide whether they agree or disagree. Students are asked to justify their response.

Explore gender images presented by the media (eg collect examples from magazines and TV). Discuss influences on gender images and how gender expectations may lead to particular behaviours, eg risk-taking, types of activities and games children participate in, choice of clothes.

In pairs, students design a birthday card that is gender-inclusive. Students will need to consider colours, toys, images and phrases used. As a class, students present their cards and discuss how they are gender-inclusive. Cards are displayed.

In pairs, students examine birthday cards and examine how boys and girls are represented using the Gender Images Activity.

Resources

- Prince Cinders Activity
- Samples of birthday cards
- Gender Images Activity
- Magazines, scissors, glue, textas, cardboard, etc.

Assessment

Student completion of Gender Images Activity

How is this story different to the Cinderella story?

Which story do you like the best? Why?

How was Prince Cinders described in the book?

How was Princess Lovelpenny described in the book?

How were the three brothers described in the book?

Why did Prince Cinders want to look like the three brothers?

What factors influenced Prince Cinders to want to look like the three brothers?

What do you think the book was trying to say by reversing the roles of Prince Cinders and Princess Lovelpenny?

Princess Lovelpenny proposed marriage to Prince Cinders. How did this make you feel?
**Gender Images Activity**

**Student:** ____________________________________________

**E1.** Each person is a unique individual with their own feelings and values and these differences should be respected.

**E2.** It is my responsibility to become a complete person with a strong sense of self worth and dignity.

**E3.** We should understand, accept and respect our body and the bodies of others.

This task provides students with the opportunity to demonstrate their standard of achievement of the following outcomes:

<table>
<thead>
<tr>
<th>Outcomes</th>
<th>Indicators</th>
<th>Working towards</th>
<th>Achieved with support</th>
<th>Achieved</th>
</tr>
</thead>
<tbody>
<tr>
<td>GDS3.9 Explains and demonstrates strategies for dealing with life changes</td>
<td>Explores how expectations of boys and girls can influence their choices and options</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>IRS3.11 Describes roles and responsibilities in developing and maintaining positive relationships</td>
<td>Models behaviour that reflects sensitivity to the needs, rights and feelings of others</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>INS3.3 Acts in ways that enhance the contribution of self and others in a range of cooperative situations</td>
<td>Recognises the influence of popular gender images on personal identity and behaviour</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**TASK:**
In pairs, students examine birthday cards and identify how boys and girls are represented using the *Gender Images Activity.*
Look carefully at the birthday cards and discuss who received them: whether a boy or a girl. Complete the following table.

<table>
<thead>
<tr>
<th>Characteristic</th>
<th>Boy</th>
<th>Girl</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Colours</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Toys</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Images – what are they doing? Playing with?</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Words used</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Expectations</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

What factors influence gender images?

<td>• Analyses the effects of actions that enhance or disrupt relationships</td>
</tr>
<tr>
<td>E.3 We should understand, accept and respect our body and the bodies of others.</td>
<td>DMS3.2 Makes informed decisions and accepts responsibility for consequences</td>
<td>• Models behaviour that reflects sensitivity to the needs, rights, feelings of others</td>
</tr>
<tr>
<td></td>
<td>INS3.3 Acts in ways that enhance the contribution of self and others in a range of cooperative situations</td>
<td>• Expresses and acts appropriately on concern for others</td>
</tr>
</tbody>
</table>

Suggested Learning Experiences

Explain to the children that touch is very important for our health and well-being, such as loving hugs from families members which help us feel loved and safe. They give us a ‘YES’ feeling inside. However sometimes we do not like certain types of touch and they give us a ‘NO’ feeling. Remind them of the protective behaviours theme, ‘We all have the right to feel safe all the time.’

The teacher draws two columns on a whiteboard and ask children to suggest different types of touches that give either a ‘YES’ or ‘NO’ feeling e.g. gentle pat, shove. In small groups, using the activity sheet provided, ask the children to categorise types of touch which give ‘NO’ feelings into the three types, accidental, deliberate and ‘just for fun’.

TW: Using the next activity sheet, ‘Types of Touch on the Sexual (private) Parts,’ explain that inappropriate touching of the sexual parts of the body happens because some people think it is ‘just for fun.’ However, it is NOT fun - it is disrespectful and degrading of the body of the person being touched. Revise the belief that we are called to appreciate and respect our body and the bodies of others. Remind the students of the protective behaviours theme ‘Nothing is so awful that we can’t talk with someone we trust’ and if someone is giving us a ‘NO’ feeling and will not stop, we should tell someone. (NO, GO, TELL.)

Explain what is sexual harassment and what is Sexting. Discuss why we need laws to prevent people from doing this.

Resources
No feelings touches Activity

Assessment
Students responses to how they would deal with unsafe sexual touch by use of protective behaviours language - e.g. saying NO and telling someone
In your group discuss and write examples of touches
that give you a 'NO' feeling under these three headings:

Accidental touching which hurts.

Deliberately touching to hurt someone

'But I was just having fun'... touching (fun only for the person doing
the touching but hurtful or embarrassing for the person being
touched)

Jesus taught us to treat others as we would like to be treated.

Would you like people to treat you in any of the ways listed under
the last two headings?

If you have treated others this way, what should you do?

If you have been treated this way, what should you do?
Types of touch on the sexual (private) parts of the body that may give a 'NO' feeling

- Deliberately touching or hitting a girl's breasts
- Deliberately hitting or kneeing a boy's genitals.
- Pinching bottoms
- 'Dakking' or 'wedgies' - pulling someone's pants down or up
- 'Putting arm around' and flicking bra straps.
- Commenting on another's breasts or genitals.
- ? (Can you name any others?)

Harassment is when you annoy, tease, pester, make angry, provoke, stalk, be a nuisance for another person. When you do this in any of the above ways it is called sexual harassment.

When you become an adult, if you touch anyone in a sexual way 'just for fun' and that person does not want you to, then you could find yourself charged with a criminal offence (i.e. you are breaking the law.)

Say 'NO' to unwanted touch
tell someone you trust if they will not stop.
Lesson 8-9   How can I be Cybersmart?

<table>
<thead>
<tr>
<th>Enduring Understandings</th>
<th>Outcomes</th>
<th>Indicators</th>
</tr>
</thead>
<tbody>
<tr>
<td>E.1 Each person is a unique individual with their own feelings and values and these differences should be respected.</td>
<td>IRS3.11 Describes roles and responsibilities in developing and maintaining positive relationships</td>
<td>• Analyses the effects of actions that enhance or disrupt relationships</td>
</tr>
<tr>
<td>E.3 We should understand, accept and respect our body and the bodies of others.</td>
<td>DMS3.2 Makes informed decisions and accepts responsibility for consequences</td>
<td>• Models behaviour that reflects sensitivity to the needs, rights, feelings of others</td>
</tr>
<tr>
<td></td>
<td>INS3.3 Acts in ways that enhance the contribution of self and others in a range of cooperative situations</td>
<td>• Expresses and acts appropriately on concern for others</td>
</tr>
</tbody>
</table>

**Suggested Learning Experiences**

As a class discuss common issues that arise when we are not cybersmart? Discuss what their families have in place at home to protect them from harm? Discuss what the school has in place to protect them from harm?

Discuss why we need laws to prevent people bullying others in cyberspace and on mobile phones.

As a class view Cyber Quoll Episode 5 – Trying it On Cyber Marketing and Episode 6 – Kids in Cyber Space – the Big Picture at www.cybersmart.gov.au/cyberquoll. For more detailed lesson plans go the this website.

**TW:** Each person is unique, worthy of respect and love. While respecting others, we do not necessarily take on their values or opinions. We are able to discriminate between what is right and what is wrong.

Discuss how our values influence our behaviour not to bully others, and to be safe in cyberspace.

Students access http://www.cybersmart.gov.au/ Kids section and explore the following:

1. ‘How cybersmart am I?’ Quiz
2. Tips to stay safe and cybersmart

Students, either individually or in small groups, prepare a Cybersafety Report on strategies to keep safe in cyberspace, suggesting ways to overcome inappropriate behaviour on line and identify when to seek help and to tell an adult. Students may present to the class, at a school assembly or post on school intranet site/wiki space.

**HOME TASK**

Choose an example of online inappropriate behaviour (MSN, SMS, My Space, You Tube) and imagine that you are a friend of the person being bullied or harassed. Outline what you would do or say to help them to stop the bullying or harassment.

**Resources**

**Assessment**

Student Cybersafety Report
## TEACHER REFLECTION - UNIT EVALUATION

### A. EVIDENCE
To what extent does the assessment evidence provide:

<table>
<thead>
<tr>
<th></th>
<th>Poor</th>
<th>Un satisfactory</th>
<th>Satisfactory</th>
<th>Good</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. A valid and reliable measure of the targeted outcomes/enduring understandings?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Sufficient information to support inferences about each student's understanding/level of achievement?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Opportunities for students to demonstrate their understandings through authentic learning tasks?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### B. LEARNING EXPERIENCES AND INSTRUCTION
To what extent did students:

<table>
<thead>
<tr>
<th></th>
<th>Poor</th>
<th>Un satisfactory</th>
<th>Satisfactory</th>
<th>Good</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Achieve the outcomes and the enduring understandings of the unit (the big ideas as opposed to basic facts and skills)?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2. Know where they were going and why (in terms of unit goals, requirements, and evaluative criteria)?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3. Deepen their knowledge and understanding of the outcomes &amp; big ideas of the Unit (through inquiry, research, problem solving, and experimentation)?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4. Receive explicit instruction on the knowledge and skills needed to equip them for the required performances?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5. Have opportunities to rehearse, revise, and refine their work based on feedback?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6. Self-assess and set goals prior to the conclusion of the unit?</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
1. What did students learn? (What knowledge and skills did they learn to deepen their understanding of the outcomes/big ideas of the unit?)

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

2. How do you know what they learnt? (What evidence do you have to support your judgement?)

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

3. What would you refine to improve student learning outcomes?

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
Think about the Personal Development and Health Education Unit you have just finished which focused on keeping yourself happy, healthy and safe, then complete the sentences below.

<table>
<thead>
<tr>
<th>Two important things I have learnt about/learnt to do during this unit are…</th>
<th>What I learnt will help me in my life because…</th>
</tr>
</thead>
<tbody>
<tr>
<td>A question about this unit that I asked in class was…</td>
<td>Something that still puzzles me is…</td>
</tr>
<tr>
<td>A question about this unit that I asked at home was…</td>
<td>I have changed my ideas about…</td>
</tr>
<tr>
<td>Something I am going to value/appreciate more about myself because of what I have learnt in this unit is…</td>
<td>If I wanted to research more about this unit I could…</td>
</tr>
<tr>
<td>Something I am going to value/appreciate more about others because of what I have learnt in this unit is…</td>
<td>I think the effort I put into my learning in this unit was:</td>
</tr>
</tbody>
</table>

(Circle one number)

| No effort | 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | Most effort |

Most effort
